- Rote memorization without context: Merely memorizing words without using them in sentences can hinder retention.

- Ignoring pronunciation: Learning the correct pronunciation from the start is crucial.

- Neglecting gender and number agreements: Many nouns and adjectives in Spanish have gender (masculine/feminine) and number (singular/plural) forms that impact sentence structure.

- Overloading at once: Focus on small, manageable groups of words rather than attempting to memorize all 100 at once.
