Prompt:

Some people believe that technology has made our lives more complicated. Do you agree or disagree?

Sample Response:

In today's world, technology plays a significant role in our daily lives. While some argue that it has complicated our routines, I believe that technology generally simplifies life and offers numerous benefits.

Firstly, technology allows us to communicate instantly with people worldwide. For example, social media platforms enable us to stay connected with friends and family regardless of geographical barriers. This ease of communication reduces feelings of loneliness and enhances social relationships.

Secondly, technological advancements have made tasks more efficient. Online banking, shopping, and education save time and effort. Instead of visiting banks or stores physically, we can perform these activities from home, increasing productivity.

However, critics claim that technology can lead to information overload and dependency. The constant exposure to digital devices can cause stress and reduce face-to-face interactions. Despite these concerns, the positives outweigh the negatives when technology is used responsibly.

In conclusion, although technology introduces some challenges, its advantages in making life more convenient and connected are undeniable. Therefore, I believe that technology has predominantly made our lives easier.
