Solvers must piece together references to the detective's adventures, analyze the clues, and deduce the correct room number—often the famous 221B.

The Disappearing Witness

This logic puzzle involves a witness who claims to have seen a crime from a window. The challenge is to determine the witness's position and the possible angles of view based on clues in the description of the scene, shadow lengths, and the position of objects. It's a test of spatial reasoning and deduction.

The Enigma of the Missing Artifact

A puzzle involving a stolen artifact requires decoding a series of cryptic clues left at the crime scene. These clues include symbols, riddles, and ciphers that lead to the location of the missing object. It demands skills in cipher decryption, pattern recognition, and logical deduction.
