- Agricultural labor: Oxen and horses plowed fields, enabling the development of civilizations.

- Transportation: Carriages, wagons, and carts drawn by animals transported goods and people across terrains.
- Military campaigns: Horses were integral to armies, providing mobility and strategic advantage.

The Bicycle's Roots and Animal Influence

While the modern bicycle was invented in the late 19th century, its early predecessors, such as the velocipede and the penny-farthing, were often associated with the same communities that relied heavily on draft animals. Moreover, the cultural landscape of the time viewed animals as essential partners in progress, and this influence extended into the burgeoning world of cycling.
