It comprises approximately 72 pages of detailed sketches, diagrams, and handwritten notes, primarily written in mirror script, characteristic of Leonardo's writing style.

The manuscript's content reflects Leonardo's fascination with water, including its behavior,

properties, and influence on the Earth's geology. It also contains early ideas that prefigure modern scientific principles, such as the conservation of water and the understanding of planetary motion.

Historical Journey and Acquisition

The Codex Leicester was created between 1508 and 1510, during Leonardo's time in Florence and Milan. It remained in the possession of various collectors before being acquired by American entrepreneur and philanthropist Bill Gates in 1994. Since then, Gates has meticulously conserved and displayed the manuscript, including a renowned exhibition at the Seattle Museum of Art.
